WEDNESDAY, April 13-P. M. Our remarks of yesterday will refer with equal force to the Stock Market to-day. There is but a moder-

ate business doing, and quotations drag. The Coal shares are generally quite heavy. Fancy railroads show no marked change. Erie, Norwich and Ston-ington are firm but dull. The premium railroads are quite firm and in some demand. Morris was firmer to-day; Nicaragua was in better demand, but shows no improvement. Bank stocks are doing rather better. In Bonds there is a moderate business doing at previous prices. At the Second Board the transactions were to a moderate extent, but the feeling was a little better.

Exchange continues quiet, but without change in rates Sterling is 9a9 for good and first-class names; France 5. 16 a5.132. The supply of bills is good. Freights are rather more active to Liverpool, and we no-

To California, the market is declining. The quotations are 40c.asoc. per foot. Lumber, \$50a\$55. To Australia there is but little going. The amount received at the Sub-Treasury is \$136,131 : pay-

ments, \$94,354; balance, \$3,940,255 The telegraph despatches from Syracuse are somewhat contradictory in their tone, but from the free bidding at the Second Board for the Central line of Stocks it is supposed that the arrangements for consolidation are proceeding harmoniously. For Utica and Sch. the bid was 165. Syracuse

and Utica 150; Rochester and Syracuse 136; Rochester and Buffalo 141; Albany and Schenectady 121. The State Lean of \$467,000, as far as we can ascertain. has not yet been awarded. It appears there was a bid for the whole loan at par for a four per cent. Stock put in by Mr. Oliver Holden, of this City. The money was not to be paid, according to the advertisement for proposals, until the 1st of May, and no deposit to secure the bid was required. Consequently, any entirely irresponsible person might have bid off the loan at a very low rate, taken two weeks to negotiate it at a profit, and if unsuccessful, thrown it back upon the State again. The Controller was in town a day or two ago, in something of a dilemma about this matter, having discovered, when too late, the blundering character of his advertisement. He was endeavoring to persuade Mr. Holden to make a deposit of \$100,000 to cure his bid, but, up to the date of the latest advices that gentieman preferred to stand by the terms of the pro-posals, and saw no necessity for correcting the Controller's blunders at his own expense. Should the Bank Basis bill pass, admitting no State Stocks but those of our own State, these four per cent. Stocks will be worth a premium.

The Mariners' Savings Bank will commence business on Thursday, 14th inst., on the corner of Hanover-square and Stone-st. The officers are-Jacob A. Westervelt, President: P. W. Engs and Chas. L. Vose, Vice Presidents; Chas. M. Livingstone, Secretary. The Board of Trustees sontains the names of some of our most respectable citizens, and the institution is deserving of the confidence of the public. Messrs Chas. Butler, of this City, and Thos. Dowling, of

Indiana, have been re-elected Trustees of the Wabash and Eri Canal Company. In the Money Market there is rather more ease. The demand is active, but is freely met at 7 per cent. on call; strictly first class paper 7a8 per cent. The Banks are more disposed to lend on call, but are still cautious in discounts. The street is quite easy, a considerable portion of the de-mand for money coming from the commercial circles. As we stated some days since, Silver is flowing from all

quarters to the Mint, where about two millions of dollars we already accumulated. The Mint is actively employed in coining. The new coin it is supposed will immediately bear one per cent. premium.

THE RESERVE STREET, NAME OF THE PARTY OF THE

The report of the Illinois Central Railroad Company has been published. It gives a very gratifying account of the condition of the stupendous public improvement, and proves that the work has been pushed with that vigor which might have been expected from the character of the gentlemen engaged in its management. After recapitulating the ear steps of the enterprise, of which the readers of The ner steps of the enterprise, of which the readers of The Tribuse have been kept informed, the report states the result of the negotiation-last summer, in London, by Mr. W. W. Gilbert, (Gilbert, Cox & Johnson.) which was the negotiation of five millions of Six Per Cent. Bonds at a commission of 2½ per cent, and the appropriation of an interest of one sixth (28,330 shares) of the eventual capital of the Company. Company, \$17,000,000, subject to the payment of instal-The Company have made purchases of rails and materials, and contracts for construction, &c., to the amount of four-The two millions of acres of land belonging to the Company are, therefore, under mortgage for less than five and a half-dollars per acre. The Company now propose to issue other three willions of Bonds, giving to each subscriber for a Bond of one thousand dollars the right to subscribe for three shares of the stock of the Company, not to be subject to instalments to an amount exceeding those on the stock was under contract, and during the winter 6,000 to 8,000 men have been employed upon the work. We shall another day give the details of the condition and procress of the different sections. It is the intention of the Directors to have the Road in operation during the ensuing season, viz: From Cairo north as far as practicable, which it is hoped will not be less than 100 miles; from Chicago to Urbans, 108 miles, from than 100 miles; from Chicago to Urbana, 128 miles, from La Salle to Sangammon River, 104 miles; and from Freeport to Galena, about 15 miles. The whole quantity of fron required for the Road and Branches, will be about 72,000 tuns; of this quantity, 67,000 tuns were contracted for at the low rates ruling during the winter and spring of 15-51-2. The parties who are to deliver the from are now constantly shipping, and the Directors see no reason to doubt that Iron will continue to arrive as fast as the necessities of the work will demand. Contracts have been made for Locomotives, to be delivered from time to time as they will be needed, a sufficient number for present purposes being now in Hilmeir. Cars of various kinds will also be in readiness as fast as the exigencies of the Road will require. From the present condition of the work and the arrangements made for its presention in all its parts, the Directors feel great confidence in expressing the opinion, that the entire Road and Branches will be completed and in operation before the close of the year 1854. The lands to which the Company is entitled under the Acts of Congress and of the Legislature of the State of Hilmeis, have been selected by the Agents of the Company. The sales of the Government lands in the vicinity of the Road, since the opening of the land offices, in August last, have been very large, at various prices, the minuous being fixed at \$2.50 per acre, double the amount at which they had previously offered them. These sales indicate a rapid settlement of the lands near the Road, and consequently a revenue to the Road inmediately apon its opening. The Directors from all the information received from time to time in regard to the quality of these lands, are La Salle to Sargammon River, 104 miles: and from Free consequently a revenue to the Road infinements paper is opening. The Directors, from all the information received from time to time in regard to the quality of these lands, are confirmed in their impressions previously formed of their value, and feel great confidence in the ultimate payment of the whole amount of the Bonds from the avails of the lands. The management of this great work is in the hands of the

The management of this great work is in the hands of the following gentlemen:

Directors—His Excellency Joel A. Matteson, Governor of the State of Illinois, ex officio: Robert Schuyler, Morris Ketchum, Win. P. Burrall, New-York, until March, 1854; Jonathan Sturges, Thomas W. Ludiow, Joseph W. Alsop, New-York, until March, 1855; George Griswold, New-York, Gouvernour Morris, of Morrisania, N. Y., David A. Neal, Boston, until March, 1856; John F. A. Sanford, Lorsy M. Wiley, New York, Franklin Haven, Boston, until March, 1857.

1857. Officers.—Robert Schuyler, President; David A. Neal, Vice-President; Wm. P. Burrall, Treasurer; Solomon Alofsen, Secretary, Solicitors, -W. H. Bissell, of Belleville, Ill.; Mason

Brayman, of Springfield, Ill.

Engineer in Chipf.—Roswell B. Mason, of Bridgeport, onn. The twelve miles of the Seaboard and Roanoke Railroad

from Weldon to South Gasten are nearly completed. This makes the connection with the Scaboard and Raleigh and Gaston Railreads. It is expected that the cars will go through for the first time on the 19th inst from Norfolk to Raleigh, N. C., the capital of the Old North State. This will open the whole of the products of the Roznoke Valley to tide water at Norfolk over the Scaboard Road, an accomplishment which has been long desired, and one which is destined to be of vast importance to the whole of that sec-tion of country, and one which will make the City of Nor-

folk a large commercial port. The Ohio and Pennsylvania Railroad was opened, and the first cars went over the entire distance from Pittsburgh to its western terminus, Crestline, a point on the Cleveland, Columbus, and Cincinnati road, distant 187 miles, on Satur-

Columbus, and Cincinnati road, distant 187 miles, on Saturday last. The Pittsburgh Gazette of the 11th says:

It is announced by advertisement in our columns to-day, that the Fort Wayne and Chicago Railroad is to be let to contractors the whole length, one hundred and fifty miles, from Fort Wayne to Chicago. By the close of the next year the cars will be running, and the direct line from Pittsburgh to Chicago will be completed. The distance from Pittsburgh to Chicago by this route, will be 467 miles, as follows: From Pittsburgh to Crestline, 180 miles; from Crestline to Fort Wayne, 131 miles; from Fort Wayne to Chicago, 150 miles. This is the shortest line that can be constructed between this city and the thriving metropolis of the north west. It is a line of easy grades and large curvatures, and will have a first class railroad the whole distance, and when finished, can be run in from 16 to 18 hours.

Markets .... CAREFULLY REPORTED FOR THE TRIBUNS

We offer for sale, at reasonable rates. \$300,000 of the 7 per cent. 1st Mortgage Convertible Bonds of the Peru and Indianapolis Railroad

Company.

Forty miles of this Road, lying between Indianapolis and Tipton, is now completed and in operation. The Madison Road operates the same. The residue of the line to Peru, 32 miles, will be completed and in operation by the lat of November next.

The symballe stock subscription is \$120,000. The mortgage debt is but \$600,000 in all, the above being a part thereof. The Road owes the Madison Read (of which it is a direct extension northwardly) and the other roads there centering.

and it will shortly be extended to the Fort Wayne and Chicago Road It traverses a region of great fertility and productiveness, having no other outlet to a market. Its local business alone will, it is thought, yield a handsome support.

Pamphlet exhibits, with maps of the work, and any other more de-tailed information desired, will be furnished on application to the sub-scribers.—New-York, April 7, 1830. WINSLOW, LANIER & Co., No. 52 Wall-st.D \$3.000.000 LOAN on the MORTGAGE BONDS of the ILLINOIS CENTRAL

RAILROAD COMPANY.

This Company will receive proposals from the 16th to the 16th day of June next, for three millions of dollars of its Construction Bonds, to be issued in sums of one thousand and five hundred dollars each, payable at the office of the Company in the City of New-York, April, 1875, with compens attached for the payment same place semi-annually, on the first of April and let of October in each year, at the rate of seven per cent per annum. These Bonds are secured by a first and only mortgage to Trustees of the whole road and branches, 704 miles in length and of two millions of

acres of land in the vicinity of the road, granted by Congress to aid in

The whole road is under contract, and a large sorce is now employed in its construction. It is expected that 350 to 480 miles will be completed by 1st January next, and the remainder of the entire line during the year 1554. About 72,600 tuns of rails will be required, of which 67,600 tuns were contracted for at the low rates ruling one year since, and is now constantly arriving at New-York and New-Orleans.

The whole amount of Bonds which can be issued under the mortgage, is seventeen millions of dollars, of which have been already negotiated—London Loan, 6 per cent. Bonds.
